Alignment with School Values

This policy aligns with our school values as follows:

Tenacity	Maintaining a Child Safe Risk Register requires persistence, vigilance, and a proactive commitment to identifying and addressing potential risks before harm occurs. Staff consistently monitor environments, practices and procedures, following through on actions that strengthen child safety across the school. This ongoing attention demonstrates our determination to create a safe and supportive environment in which every member of our community can thrive.	
Equity	Our Child Safe Risk Register reflects our commitment to ensuring every child feels safe, respected, included and protected. Risks are considered through an inclusive lens so that the diverse needs, identities, and experiences of all students are recognised and supported. By actively identifying barriers and vulnerabilities, staff work together to ensure all children have equitable access to safe learning environments and positive experiences.	
Synergy	Developing and maintaining the Child Safe Risk Register is a shared responsibility that relies on strong collaborations between staff, students, families, and the broader community. Staff communicate openly about risks, concerns, and preventative strategies, working collectively to strengthen child safety practices across all settings. This collaborative approach ensures consistent responses and reinforces a culture where everyone contributes to keeping children safe.	
Stewardship	The Child Safe Risk Register demonstrates our collective responsibility to safeguard the wellbeing of every child in our care. Staff thoughtfully assess risks, implement preventative measures, and regularly review practices to ensure child safety remains a priority in all aspects of school life. Through careful planning, accountability and continuous improvement, we uphold our responsibility to create and maintain a safe environment for our community.
